

Area covered by header rail

Visible artwork size
800mm W x 2000mm H

Bleed size
820mm W x 2090mm H
10mm top, left, right
80mm at bottom

Any images that need to
'run' off the edge of the banner should extend
to the bleed line.

Artwork

Images should be at least
150dpi at actual size for best
results.

Artwork may be supplied at 25%.
If this is the case, images should
be approximately 400dpi
at 25%.

Please supply artwork
as hi-resolution PDF files, showing
cropmarks
and bleed.

Non-visible area used to wrap round roller mechanism
